

I am against the banking industry attempt to weaken Wisconsin's no call list. I do not want someone bothering me by selling goods and services. If I want something I want to choose the goods and services and who will provide them.

What ever happened to State Rights? What happened to individual rights? I have the right to life, liberty and the pursuit of happiness. This right will be lost due to these people disturbing my peace by trying to sell me light bulbs at \$25.00 per bulb! Then my blood pressure goes up, I yell, my wife gets angry with me and the dogs take off. Not a good situation.

Tell the banking industry too bad. Try a different method to sell their goods. Try the mail, radio or TV. That helps keep the postal employees busy (because we know all government employees are useless) and communication people employed thus raising tax revenue. It is time business become responsible community members.
